MERCHANTS PLAN TO FIGHT NEW LAW

Alexandria Dealers Oppose Assessment Act—Association to Consider Action.

ALEXANDRIA, July 18.-Members of the Retail Merchants' Association will meet tomorrow night in the Chamber of Commerce rooms to receive the report of a committee which has been vorking jointly with a committee of five ther business men concerning the advisability of taking legal action to test the constitutionality of the new law for assessing Virginia merchants on the amount of their purchases.

The clause of the new tax law to which the merchants object is that requiring them to make up the difference between the amount of their purchases for the past five years and the amount as reported to the commissioner of revenue. Members of the local association contributed five dollars each at the meeting last Thursday to defray legal expenses that would arise should the nmittee recommend a test case.

Quick action upon the receipt of a elegram in this city yesterday by Chief of Police Goods from Chief R. F. Ragiand of Petersburg, resulted in the arrest a few minutes later of Cecil Tyson, alias William Freen, colored, who is wanted in the latter city. The negro was found in front of the city hall steps. The charge against him is picking the pocket of a Richmond merchant.

Robert S. Barrett, editor of the Alexandria Gazette, was elected president of a few inside tips on conditioning the Virginia Press Association, which ended its annual session yesterday in Newport News. Other members from this city who attended were Will F. Carne and Alexander J. Wedderspoon.

A second organ recital will be given at Christ Church tonight at the close of the open-air service in the church-yard, under the leadership of James Bagley, director of the choir, assisted by Mrs. Janet Pickett, of this city, and Ricardo Zappone, of Washington.

A feature of the joint excursion to be given to Marshall Hall tomorrow by Grace Church and St. Paul's Church Sunday schools will be a baseball game between the two Sunday school teams.

The baseball team of Alva Aerie, Fraternal Order of Eagles, won from the Fort Myer team yesterday by the score of 11 to 0. The Cardinal baseball club plays the Trinity team of Washington this afternoon.

Albert Peaczke, a German fruit dealer, who was assaulted a few days ago, must answer in police court tomorrow to a charge of obtaining \$30 under false pretenses.

A number of arrests for drunken and disorderly conduct were made last night.

Recent real estate transfers include the sale of houses and lots on North Royal street to Joseph Hayman by Charles H. immerman, and the purchase by C. C. Smoot & Sons of a house and three lots from Miss Annie M. Pelton.

Liner Lapland Safe. LONDON, July 17.--The White Star liner Lapland, which carried a large

golf tournament at the Bannockburn Club, returning a card of eighty-seven.
The event is a medal play tourney, each
player negotiating eighteen holes. John
L. Warren, with a score of eight-eight,
was second.

IT'S EITHER DANDRUFF OR HAIR

You Can't Have **Both For** Long

Look at your coat collar. If it shows evidence of dandruff you can take it as a sure sign of coming baldness unless you take steps to prevent it.

When the hair threatens to leave you can't afford to take any chances. Go to O'Donnell's Drug Store, 904 F street, and ask for a 50c bottle of Speiser's Scalp Tonic. Use it according to directions, and in a reasonable time dandruff, falling hair, and irritations of the scalp and skin will disappear and the growth of the hair will be promoted. Mr. O'Donnell is so certain of the merits of Speiser's Scalp Tonic that he'll gladly refund your money if it fails.

Avoid preparations containing alkalis (the presence of alkali is made known by the foaming of the liquid) or cocoanut oil. Be on the safe side—use Speiser's Scalp Tonic only.

Encouraging News Continues!

Our Boynton Holdings Increasing in Values Daily

BEATING THE RECORDS

We are interested in eight wells, drilled or drilling, in the Boynton Oil Pool since securing the properties we own there March 12 last.

1. Sutton Lease, section 29, struck oil March 18th.

2. Patton lease, section 28, ten million cubic feet daily gas well.

3. Shepard lease, section 14, struck oil June 25th.

4. Lyne lease, section 28, struck oil July 2. 5. Sutton lease, section 32, five to eight million cubic feet gasser.

6. Offset well to our lease, section 11, struck oil July 14th.

7. Whistler lease, section 27, three million gas, July 16th.

NUMBER EIGHT IS IN TOO

We will announce the result on next Tuesday, at which time the price of Treasury Shares will be advanced.

You Can Buy Treasury Shares at Par (\$1.00) Today Eight Wells! Every One a Paying Well! Some Record!

With possible exception of the Lyne well, in which we are fighting salt water in a strata above

The United States Geological Survey reports show that 86 per cent of over 35,000 wells, the approximate number drilled from January 1, 1903, to date, in the Mid-Continent Oil Field (Oklahoma and part of Kansas) have been paying wells. A Wonderful Record since the oil business is considered so highly speculative by some people.

We are beating this record, and expect to continue doing so on our Boynton Properties. Oil Experts (see news items) say there are hundreds of proved locations to drill in the Boynton Pool. Our holdings cover nearly 40 per cent of the present proved area. The eight wells listed above cover a distance of about five miles from N. E. to S. W., and the pool averages about one to two miles wide. Five square miles contain 3,200 acres, on which from 300 to 500 wells can be drilled. The average well costs \$4,000. A 100 bbl. well at present price of oil is worth \$30,000. With oil at \$1 per bbl. this same well would be worth \$100,000. Oil will soon be \$1. (Consider the effect of the war-gasolene transports the armies.)

If, instead of keeping up our wonderful record, we obtained the 86 per cent average above referred to, which we have every reason in fact to believe, we would have 86 wells out of one hundred drilled (we will drill the hundred wells) on our Boynton holdings.

Figure up the possibilities. We will be glad to verify all the statements made herein and prove them to you.

Then you may subscribe for Treasury Shares and put your money to work. Get these facts before the price goes up Tuesday.

OKLAHOMA OIL STOCK TREASURY SHARES

Will be advanced in price shortly. Their value is increasing day by day. Daily reports from our president may be seen by any of our stockholders at our offices in The Union Trust Bldg.

NEWS OF THE OIL FIELDS

BOTHTON FIELD.

W. G. Long, writing of the Boyn ton field, says: This field has grown gradually and slowly for the past year. They have now completed and producing. 54 wells with a daily production of 5.750 barrels. The pipe line service is the best and they are getting all the oil run, so I am told by a producer of that field. Pretty conclusive evidence that a proposed pipe line always helps. In old Jack Gregory the Boynton producers seem to be entertaining an angel unawares. There are three rigs up, 14 drilling wells, and there were 18 completions last month .- Times-Democrat, Muskoges, Okla., July 9, 1915.

NEWS OF THE OIL FIELDS

Western Muskogee county continues the most active spot in the district with Boynton centralizing most of the wells. The Boynton pool proper, northwest of the town, continues spreading and will afford hundreds of wells in the territory already proven.

As a central point for wildcats, Boynton, however, now outranks everything but the Cushing pool. Immediately west of the town five started; one is drilling in the northern edge of town; a gas well has just been completed immediately east of town.

Muskogee Daily Phoenix, July 12. 1915. *Note-This gas well is on our lease section 32.

The Price of Crude Oil Is Going Up

Now 40c per bbl.

and \$2.50 predicted

The war has exhausted European stocks of stored oil. The Galacian wells were ruined by the retreating Russians. American Oil exports has recommenced on a large scale. American stocks of stored oil now being drawn upon.

Production Decreasing—Demand Increasing

The great Cushing Pool has fallen from 300,000 bbls. daily production to (estimated) 160,000 bbls. daily in the last few months. The remaining Oklahoma Oil Fields produce only about 100,000 bbls. daily.
